

KSENIA COULTER

FULL-STACK WEB DEVELOPER

kseniacoulter@gmail.com – github.com/ksoulter – www.kseniacoulter.com

Full-stack developer with design taste and a strong interest in front end. Background in neuroscience research, helps bring a deep understanding of human behavior to my work. I seek out opportunities to give back to the tech community by mentoring new developers, writing, teaching code, and speaking.

SKILLS

LANGUAGES: HTML5, SASS/CSS3, JavaScript, Ruby, PostgreSQL, Oracle SQL, Java.

LIBRARIES/FRAMEWORKS: Backbone, Node, jQuery, Ruby on Rails.

MISCELLANEOUS: Git/Github, SVN, Heroku, OOP, TDD, Agile, JSON/AJAX, XML/SOAP, Jasmine, Adobe Photoshop, OpenText Process Suite.

EXPERIENCE

WEB DEVELOPER: The Washington Post, DC, 2016 - Present

Spearheaded native support for Google's AMP-HTML on Arc Publishing Suite - a suite of products aimed to address all of the modern newsroom needs.

I develop for default feature pack, and work with international clients to create custom front end features.

ASSOCIATE CONSULTANT: Counterpoint Consulting, VA, 2015 - 2016

Built an internal applicant tracking system. Responsible for file upload functionality and integration with Google Drive.

Worked on continuous enhancement of eConsultant2 application to ease the procurement process and meet the changing needs of the World Bank Group. Provided on-site client support.

Contributed to internal Counterpoint Consulting knowledge base by writing technical articles.

WEB DEVELOPMENT IMMERSIVE STUDENT: General Assembly, DC, 2015

Full-stack web development program focused on common best practices in object-oriented programming, MVC frameworks, data modeling, and test-driven development. Developed a portfolio of projects:

[Traversd](#) | A Bus App for Washington DC Transit System | Node, Express, Sequelize

[Board Together](#) | Event Scheduling App to Connect Boardgame Players | Ruby on Rails

[Concentration Game](#) | Game To Test Your Short-Term Memory | JavaScript/jQuery

[Hangman](#) | Digital Version of the Classic Game | JavaScript/jQuery
